2.5.3 IT integration and reforms in the examination procedures and processes (continuous internal assessment and end-semester assessment) have brought in considerable improvement in examination management system of the institution

Kuvempu University has introduced the CBCS from the year 2005. As per the regulations governing the Choice Based Credit System, the evaluation procedure adopted for all Post Graduate courses is as follows. Semester end examination carries 75 per cent of the maximum marks in every paper. The remaining 25 per cent of the maximum marks are allocated for continuous assessment. The continuous assessment is made through two tests, one assignment and a seminar-group discussion in every paper.

Marks awarded for internal assessment through continuous evaluation are notified to the students and provision has been made for addressing grievances of students regarding the same. The departmental council takes steps to set right the grievances. It can also permit the student to take the retest in any paper if there is genuine ground for allowing such a re-test.

- All the activities continuously monitored and recorded by using CCTV / Internet
- The daily report of corrections and modifications of Marks Cards/Ledger is continuously monitored by Registrar (Evaluation) by printing name/employers ID.
- The account of Answer Booklets dispatched to the college/examination centre is also monitored by using web enabled system.
- The Answer booklet bundles from the College / Dept. examination centers will be collected on the same day only by the permanent faculty/staff members
- Fool proof mechanism established for packing and delivering Question Papers to Examination centers with GPS and CC camera fitted vehicle.

Sufficient audit trial is being generated so as to track any exceptional activities that might take place in the system.
