Jnanasahyadri Bulletin

Prasaranga

THE UNHOUSED CONSCIOUSNESS (The Song of the Universal Man)

Be unhoused, O my soul !
Only the Infinite is your goal.

Leave those myriad forms behind
Leave the million names that bind.
A flash will pierce your heart and mind
And unhouse you, O my soul !

Winnow the chaff of a hundred creed.
Beyond these systems, hollow as reeds,
Turn unhorizoned where Truth leads,
to be unhoused, O my soul !

Stop not on the unending way,
Never build a house of clay
The quest is endless, Night and day,
There can be no end to your play,
when you are unhoused, O my soul !

The infinite's Yoga knows no end
Endless the quest you apprehend.
You'll grow infinite and ascend
When you are unhoused, O my soul !

- Kuvempu

Vice Chancellor's Message

I feel proud to share with you the aims of the Kuvempu University on this occasion when the Prasaranga, Kuvempu University is bringing out this Jnanasahyadri Bulletin. The Prasaranga of the Kuvempu University is enthusiastic about following the ideals of Kuvempu. Our university which is the garden of peace for people from every community likes to make higher education available to everyone. Prasaranga believes in following the ideals of Kuvempu as expressed in the lines “below away the chaff of a hundred castes, transcend the limits of all philosophies rise beyond the horizons”. Our university dreams of spreading knowledge not only to scholars and students but also to every ordinary person. The Prasaranga is doing this job of fulfilling this dream in a very efficient manner.

The Directors of Prasaranga, the teaching and the non teaching staff and the students of this university are helping us to implement some of the ideals of Kuvempu. The university has taken all the measures to satisfy the desire for knowledge that our students have. Studying in this beautiful place students are shaping their activities in a unique manner. Through various activities like teaching, publication of text books, lectures, etc, the Prasaranga is acting as a touchstone of objectivity and rationalism. It is also encouraging that new books on topics like health, history, science, education, society, culture, and environmental knowledge are being published. This Bulletin will indicate the quality of the creativity of our students, teachers and non teaching staff. Our university has many ideals. I believe that our society will join us in our efforts to move towards those ideals. I would like to thank everyone who is contributing to the development of the university.

Prof. Jogan Shankar
Vice Chancellor

Director's Address

Publication, teaching and research are the three main pillars of any university. If we add administration to it, we have four main pillars that contribute to the progress of a university.

University is not a factory that mechanically teaches and creates students who are teaching machines. Along with producing students who are rational, and who are scholars in social and academic sense, a university will also be involved continuously in research. The research in a university is successful only when the results of research reach common people. Research in a university is fruitful only when the results of research are used by the common people in their everyday activities. It is here that the publication wing (Prasaranga) of a university makes a significant contribution by acting a bridge between the university and the society. Hence Prasaranga is a very important wing of the university.

“Jnanasahyadri Bulletin” that is being brought out by the Prasaranga of Kuvempu University is a monthly newsletter. The Bulletin will include information about all activities of the university that take place in the particular month. The Bulletin will include details about the curricular and the co-curricular activities of the students, research activities of the teachers, their paper presentations in seminars, academic visits to other nations, and their academic achievements. In this respect, the newsletter will act as a hand mirror of the university.

To expand the scope of the Prasaranga, the Hon'ble Vice-Chancellor Prof. Jogan Shankar and the Registrar Prof. H.S.Bhojya Naik have started a new project called “Jnana Sahyadri Pustakamale”. In this regard, the university is planning to release 100 books through different stages and has collected manuscripts from teachers by sending a circulation to all lectures in the university. These will be published very soon. There is no doubt that this will be one of the significant projects of the university. I hope that the teaching and the non-teaching faculty will encourage the Prasaranga by giving full co-operation and help it to grow.

Dr. Chandrashekar. E.
Director

Vice-Chancellor's Programmes

- 05-04-2017 • Attended & inaugurated 110th Birthday celebration of Dr. Babu Jag Jeevan Ram at S.P. Hiremath Hall organized by Dr. Babu Jag Jeevan Ram Studies Centre.
